

# Trust

NUMBER OF PLAYERS: ENTIRE CLASS

PROPS: Mask/blindfold

**OBJECT:** All names are entered into a bowl/envelope. Moderator will choose a name from the pile. This name is Player 1. Player 1 then chooses a name from pile (Player 2). This is the name of the person Player 1 will “trust” to get him/her through a maze to a specified point. Player 1 will cover their eyes with the mask/blindfold.

The remaining players will rearrange the chairs and other obstacles in the playing area. Moderator will place Player 1’s name on a chair. Player 2 will give **ONLY** verbal cues to get Player 1 to the designated spot. When Player 1 has successfully reached the end, Player 2 picks a name and becomes the next player to be blindfolded.

Play continues until the last player walks the maze directed by Player 1.
