

Favorite Music Interviews

Grades 2-12

How it works: Have students interview family members about their musical backgrounds and interests. What is their favorite song right now and why? What instruments do they play? What were their favorite songs growing up? What does music mean to them? Who are their favorite artists?

Students can record the responses they get and also answer the questions themselves. Afterwards, they can play back the interviews for their families or share them with friends.

What you'll need: writing materials and/or something to record their interview, like an iPhone or iPad.
