

# Happy Feet

Instructions: Before reading the book, teach the students the movements of the book.

Timpity- dancing on toes

Stompity- stomping feet like an elephant

Slappity- slap feet on ground like the webbed feet of a duck

Creepity- while standing slither the body around like a caterpillar

Thumpity- stomp around like a bear

Clickity- click heels together

(Read the book) Once you have shown the students the different movements, ask the students what animal might be doing each movement (clickity, stompity, etc.) that is being described.

For example, what animal tiptoes around? What animal stomps their feet when they're walking around?

When the students guess the right answer, have them act out the movements.

OR

(Play the audio) The students can do the movements along with the story with the teachers.
