

Love Bubble - Grades 5-12

Students will create drawing of the word LOVE in bubble letters.

WHAT YOU NEED:

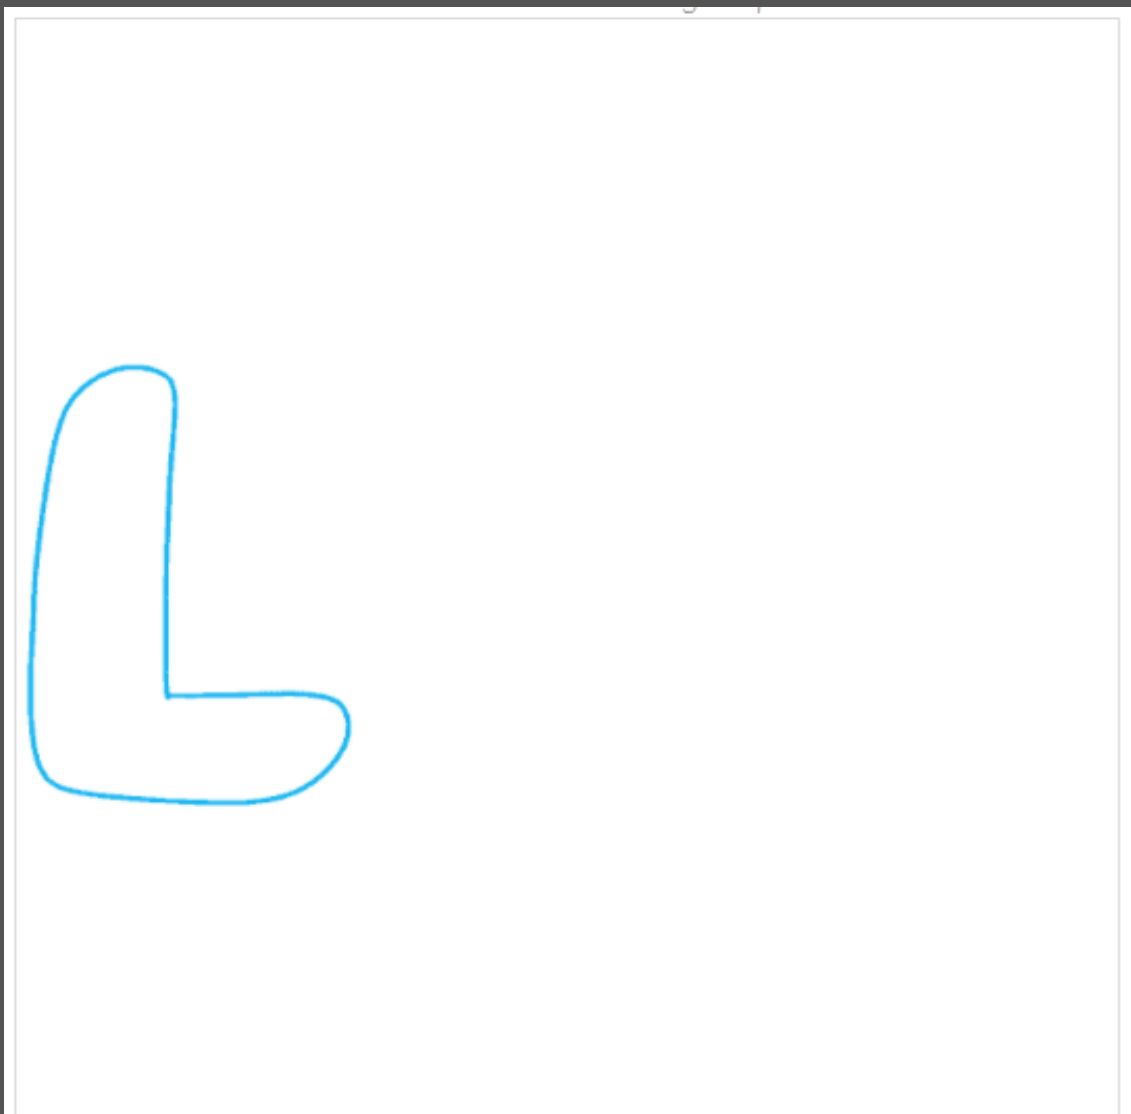

Pencils

Paper

Colored pencils or crayons or pastels or markers

TEACHER ASKS:

Students to say what the word love means to them.

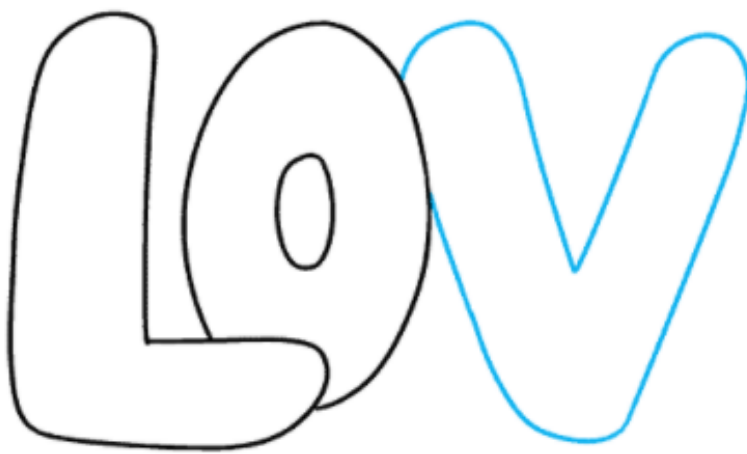

1. Begin by sketching the letter "L." First, draw an "L" shaped line. Extend a curved line from one end of it, and allow it to run basically parallel to the letter. Attach it at the opposite end.

frame]-->

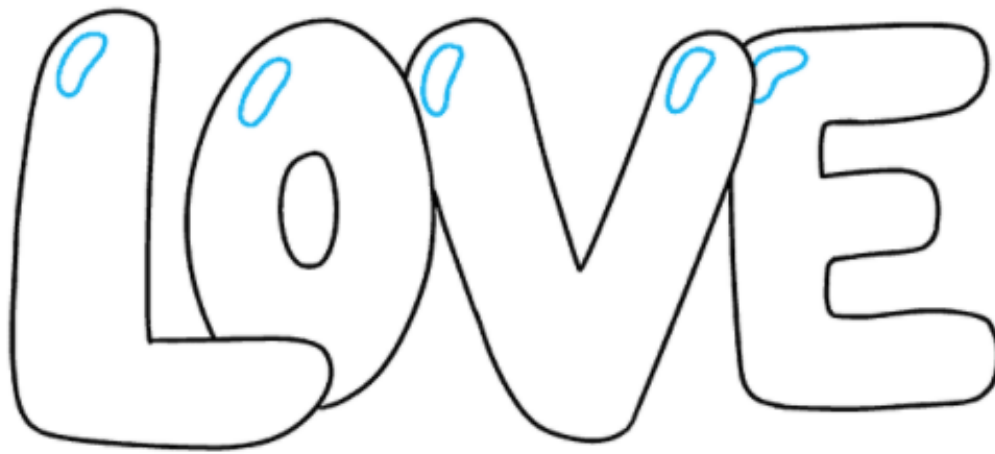

2. Draw the letter 'O.' Enclose a small oval inside a large oval. The large oval should be partially hidden by the letter 'L.'

3. Draw the letter 'V.' First, draw two straight lines in the shape of a 'V.' Attach one side of the 'V' to the letter 'O' using a curved line. Extend a curved line from the opposite side of the 'V.' Curve it around roughly parallel to the 'V,' and attach it to the 'O.'

4. Draw the letter 'E.' Extend a straight line down from the arm of the 'V.' Curve it around and double it back upon itself three times to form the arms of the 'E' before attaching it to the top of the 'V.'

5. Bubbles reflect light. Draw a curved shape at the top of each letter to give it a three-dimensional appearance.

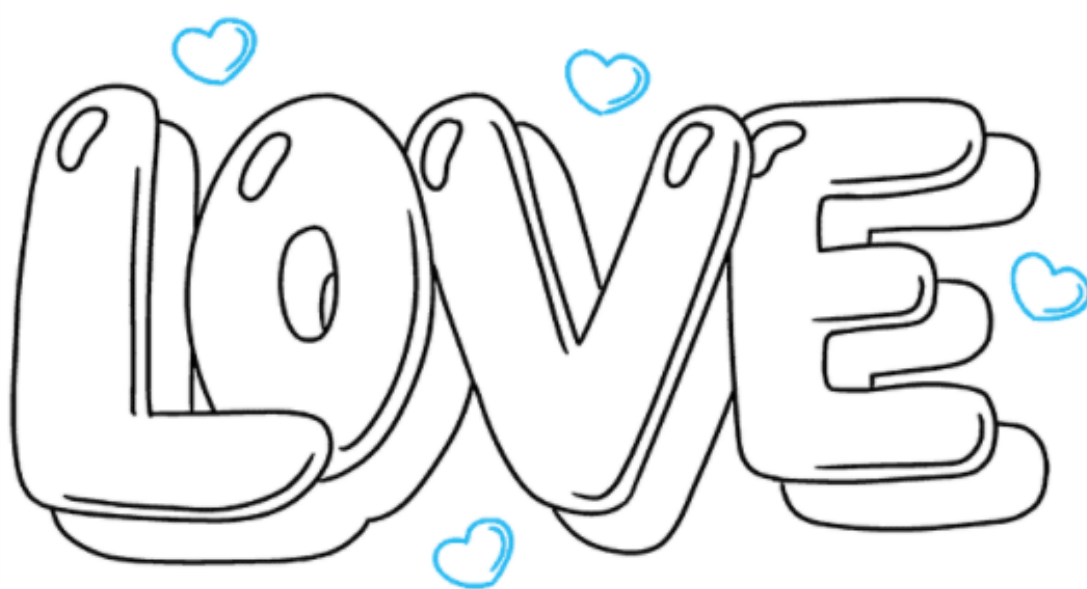

6. Add more dimension to the bubbles by drawing lines parallel to the right and bottom sides.

7. Begin outlining the letters to make them 'pop' off the page in three-dimensional style. Draw curved lines along the right side and bottoms of the 'L' and 'O.' Don't forget to draw a curved line through the center of the 'O.'

8. Draw curved lines along the right side and bottom of the "V" and "E."

9. Draw small hearts above, below, and beside the word "LOVE." Give the hearts a three-dimensional bubble shape by drawing a curved line parallel to one side.

Color the word "LOVE." Typically, pink and red are colors used to express this emotion.
