MUSIC BASED SPANISH LEARNING

CHECK OUT
WWW.ROCKALINGUA.COM FOR
MUSIC BASED SPANISH LEARNING
FOR KIDS!

Browse the selection of original songs below that are designed to assist children with learning Spanish.

Research shows that students retain more vocabulary when presented through a song. Singing songs is fun for children and it creates a "stress free" environment. While students sing our songs, they are actually speaking real Spanish used in daily live conversations and they are, without realizing, repeating meaningful vocabulary and grammar structures.

Our Spanish songs for kids include color-in worksheets with lyrics and cover topics such as numbers and colors, feelings, parts of the body, clothing, the four seasons and much more! Spanish for kids made fun and easy!
