

Soundtrack of My Life

Grades 6-12

How it works: Have students create an imaginary album or playlist that shows who they are. They can make a list of song titles, and for each song describe the music—this could be done by having students find songs that describe aspects of their personality/life.

Students could also design an album cover to go with it, write liner notes, etc. They can share the playlist with family and friends.

What you'll need: access to a music platform like Spotify, YouTube, iTunes, etc. Paper/pens/drawing supplies if the student wants to make artwork to go with the album.
