

Draw a Hand Tree

Grades 1-5

This may be a little complicated. Students will create a drawing of a tree that resembles a hand.

WHAT YOU NEED:

Pencils

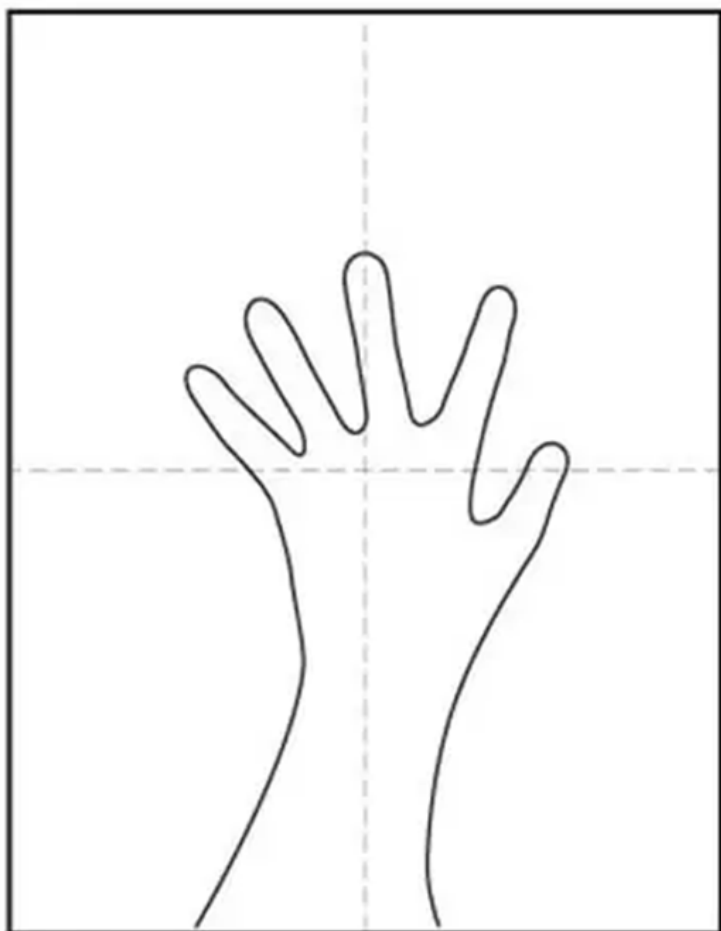

Paper

Colored pencils or crayons or pastels or markers

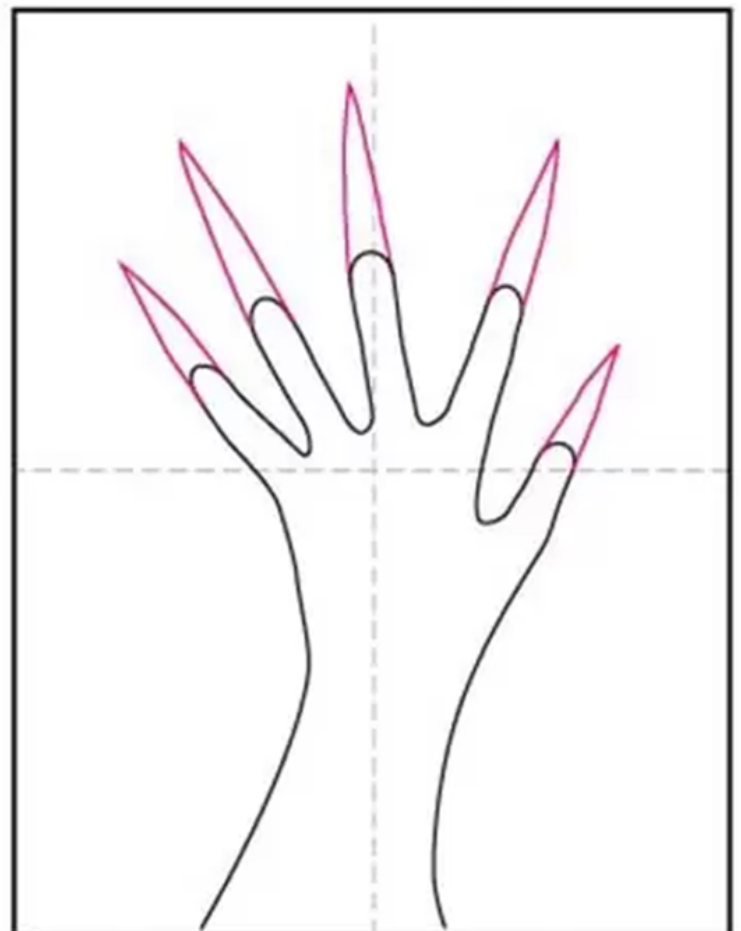

TEACHER ASKS:

This drawing could be turned into a scary Halloween look, or a pretty one with lots of flowering leaves. The pointiness of the fingers and choice of colors will make all the difference with what students decide to create.

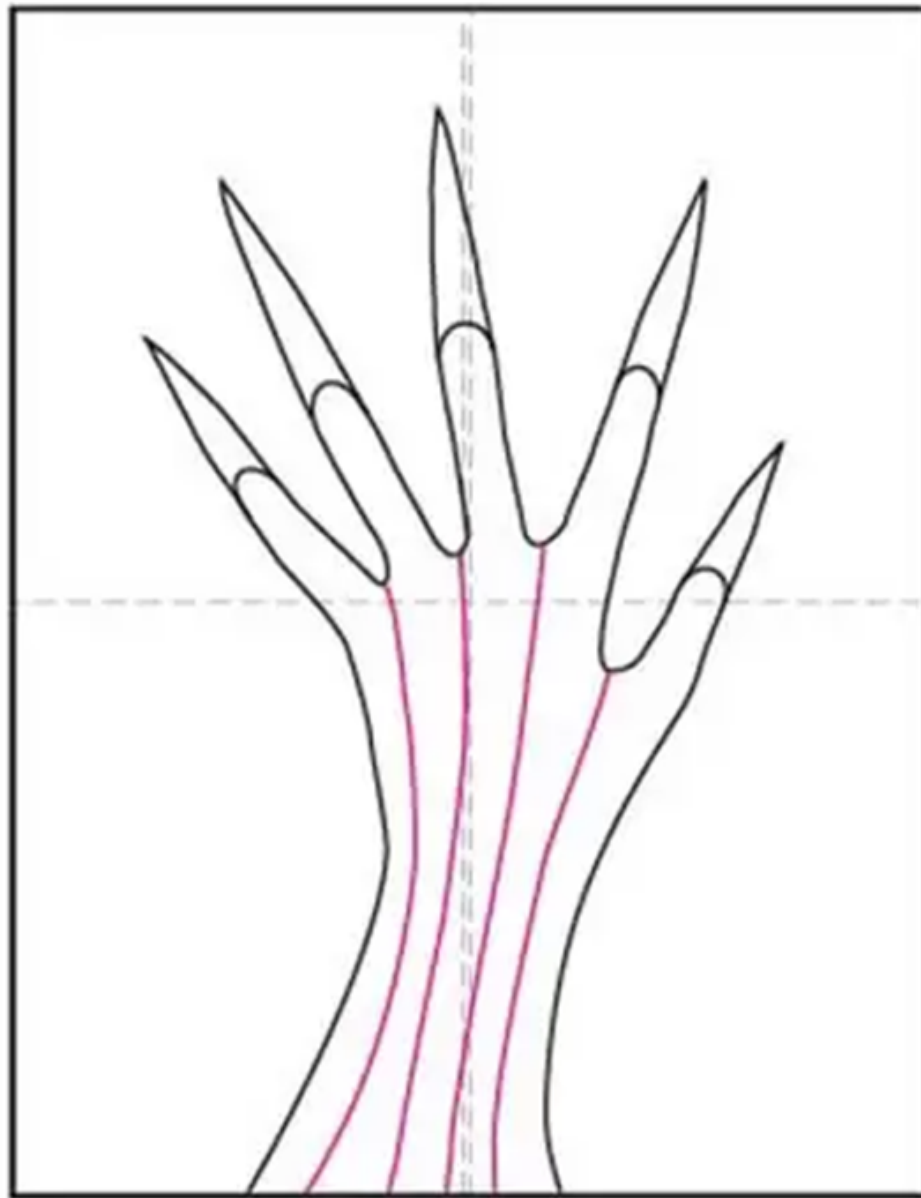

1. Trace your hand.

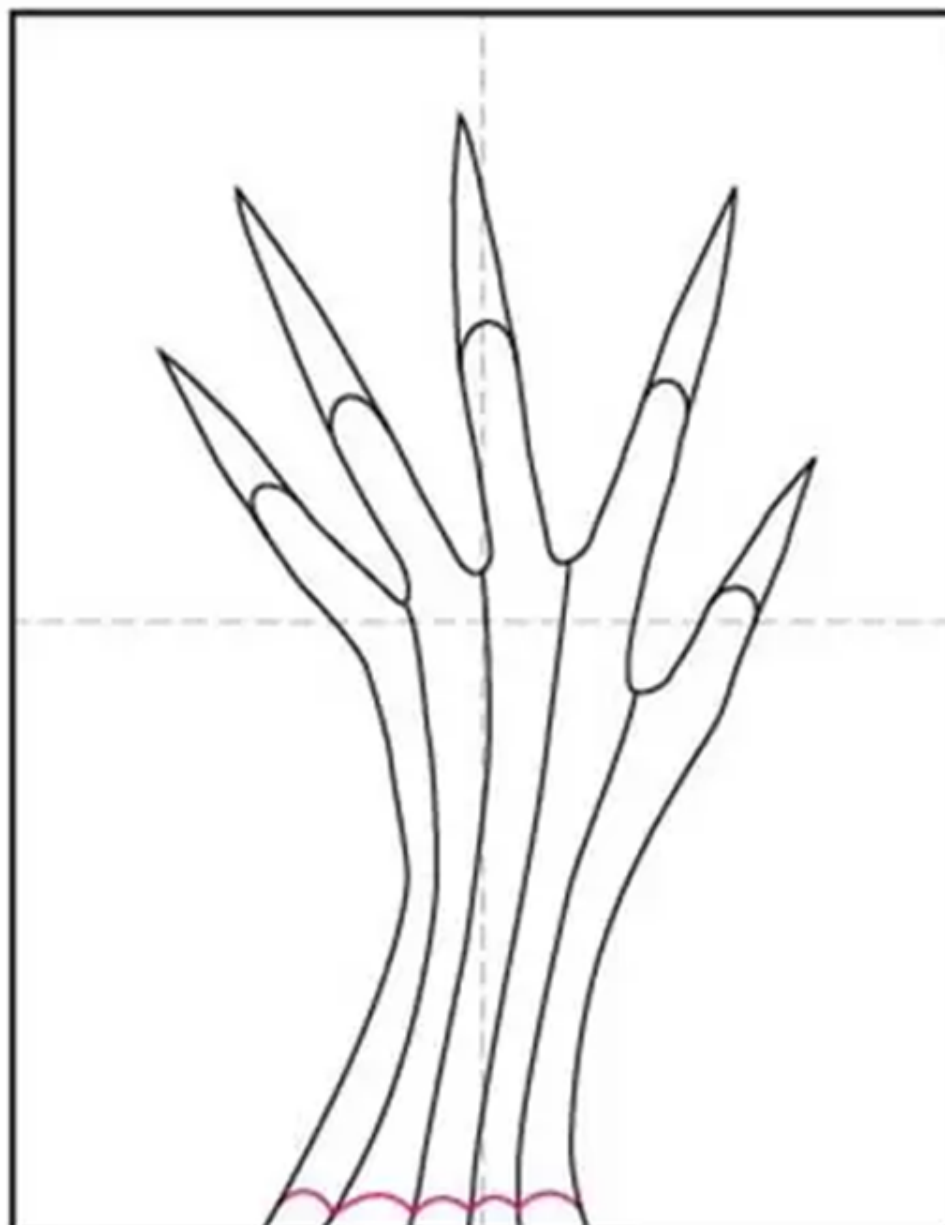

2. Add pointy ends to the fingers.

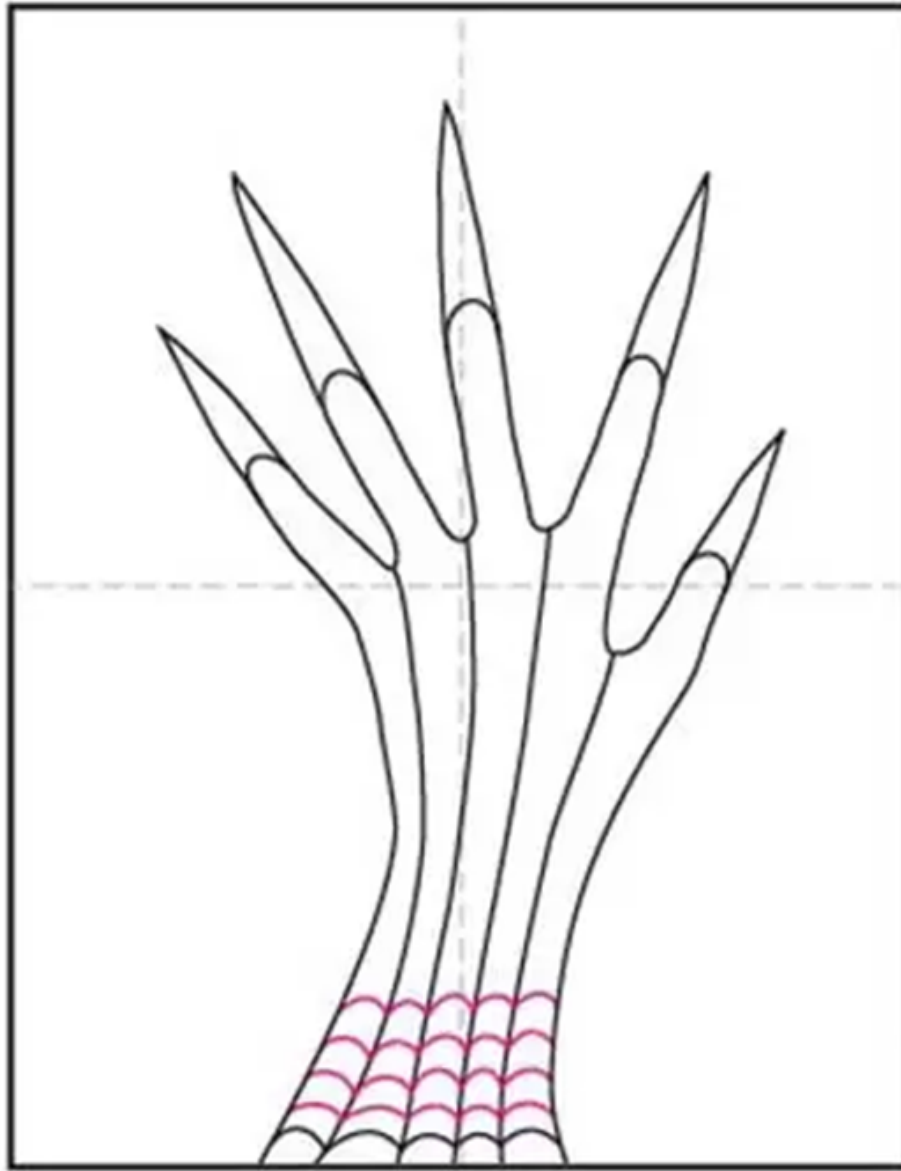

3. Draw vertical lines as shown.

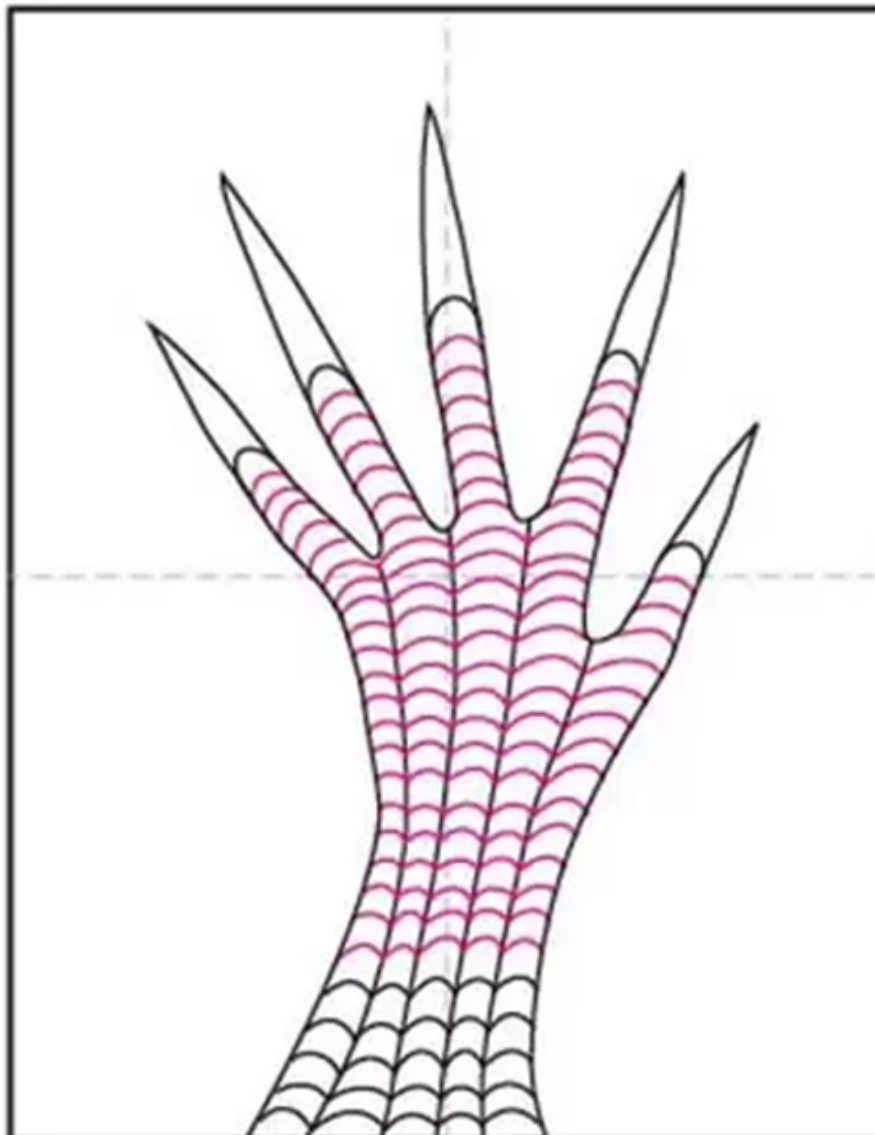

4. Make horizontal "jump" lines.

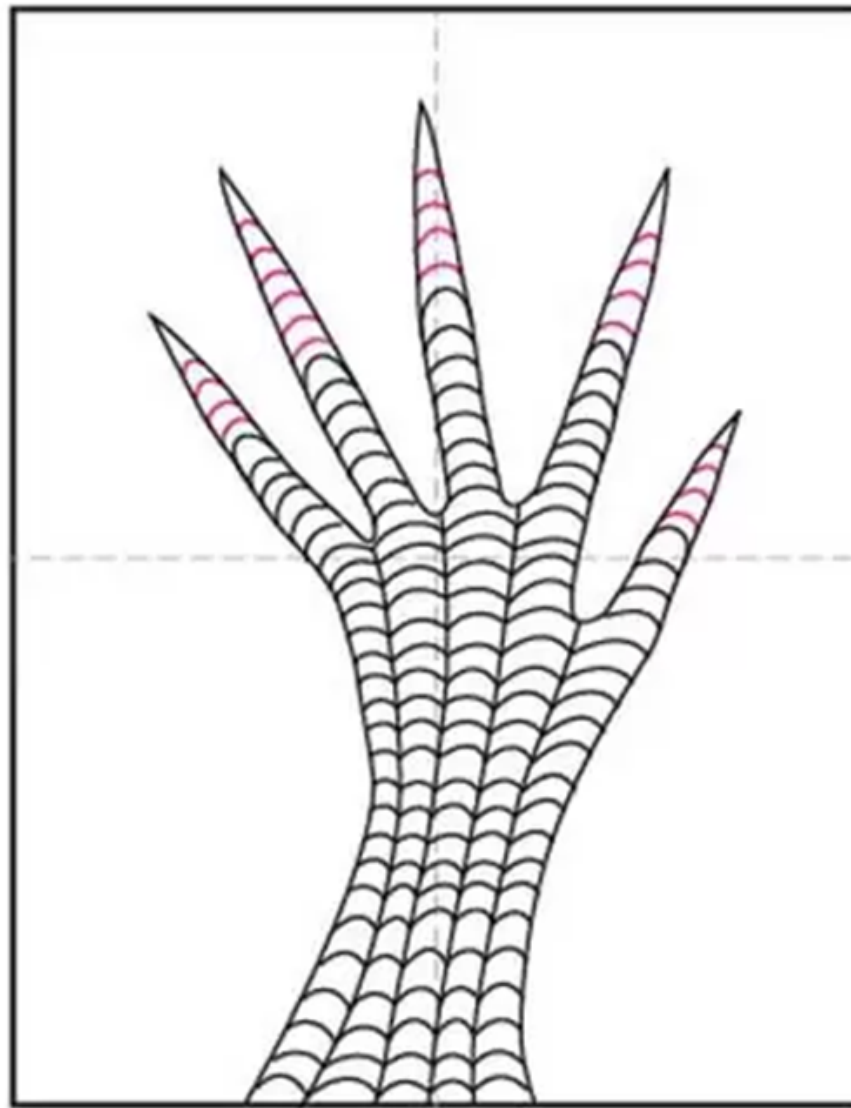

5. Continue making lines upwards.

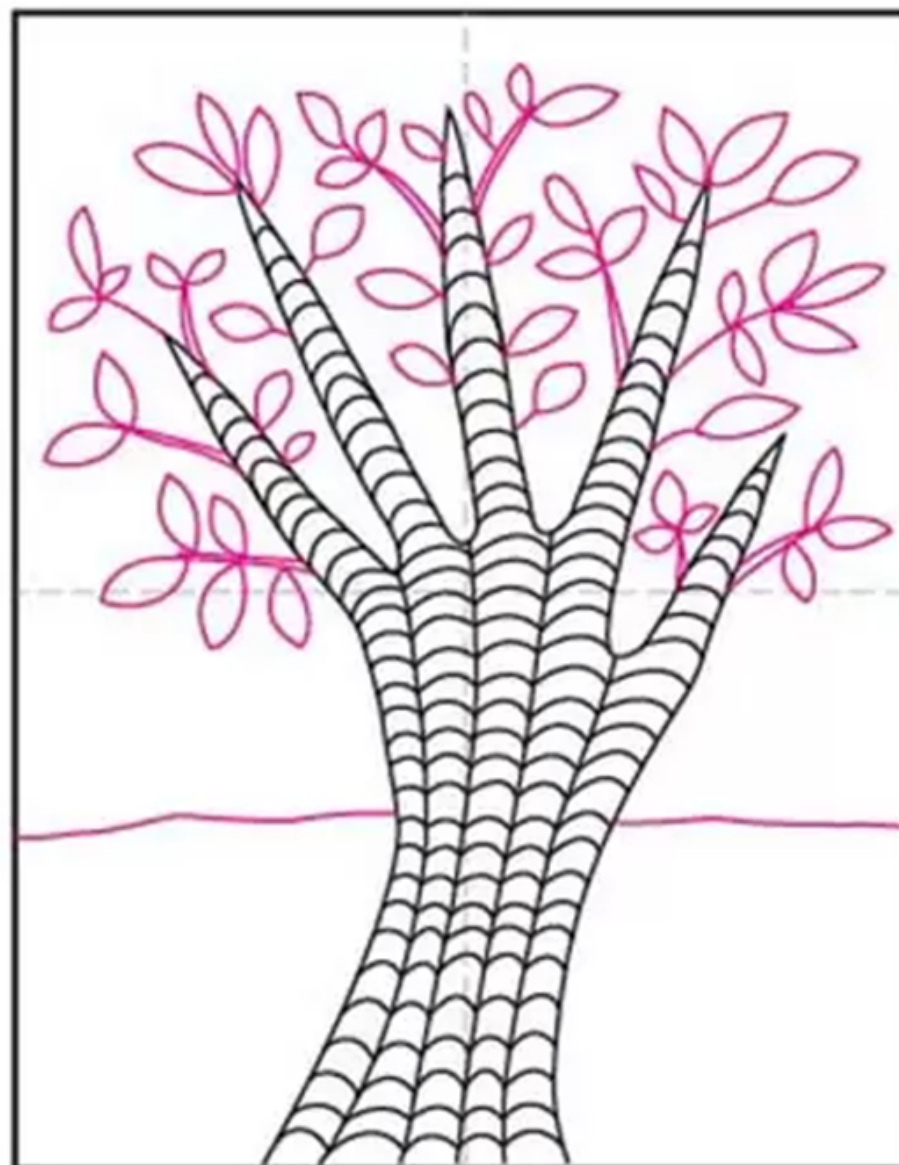

6. Continue lines in fingers.

7. Finish with lines in the tips.

8. Add little stems and leaves.

9. Trace with marker and color.
