

# Draw a Cartoon Spider - Grades K-12

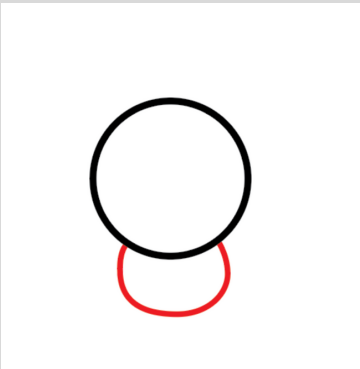

**This drawing teaches students how to draw a Cartoon Spider using circles and lines.**

**Materials: Paper, Pencils, Crayons, Watercolor, Pastels**

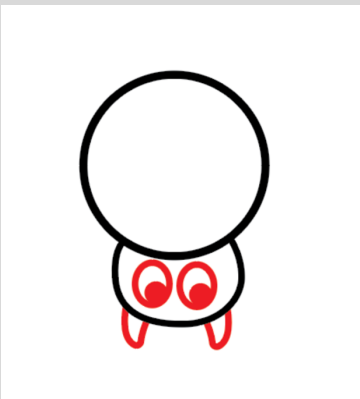

**Step 1: Start by drawing a big circle for the spider body. The circle doesn't have to be perfect – in fact oval shape will work out great just as well.**

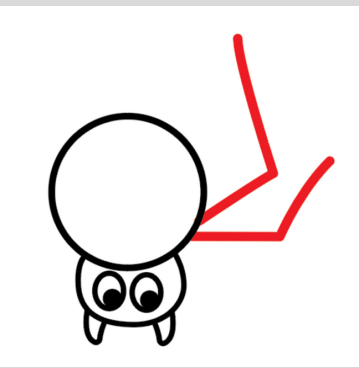

**Step 2:** Draw a “wide U” shape under the circle. This will make the spider’s head.

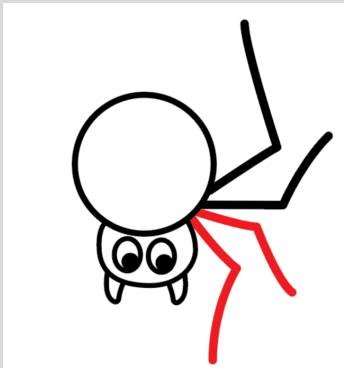

**Step 3:** A set of eyes and fangs if you are going for the scary spider.

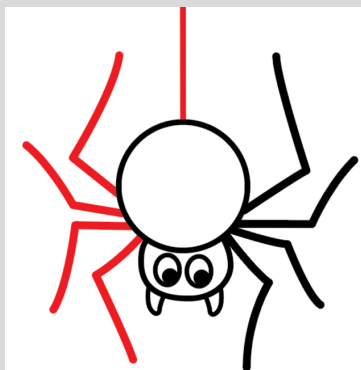

**Step 4:** Next come the legs. Draw the first pair.

**Step 5:** Then the second pair.

**Step 6: And repeat on the other side. If you want your spider hanging from the web, also draw a straight line from the back.**

**Step 7: Color. Color your spider any color you want.**
