

# Toucan Collage - Grades 4-6

Supplies: Printer, White Paper, a colored sheet of paper (card stock would be best), a piece of scrap paper to practice patterns on black marker, markers, colored pencils or crayons, scissors and a glue stick.

Here is a great short educational video about toucans you can show your students before this activity:

<https://www.youtube.com/watch?v=9QbyE4iPGYU>

- 1- Print a copy of page 2 (The toucan) on white paper
- 2- Cut out each section to use as a pattern for your toucan
- 3- Number starting at the bottom of the toucan each section you see like page 3 lightly in pencil on the back side of each piece
- 4- Look at the pattern options on page 4 and practice making them on scrap paper
- 5- Using black marker, add a different pattern in each section of the toucan except #1 and #4 (See page 5 for directions on how to make Sections #1 and #5 work. Eyes and Feet)
- 6- Add colors to each section of your toucan with colored pencil, marker, or crayon
- 7- Add glue with your glue stick to your background colored paper (it is heavier and won't tear) in the areas you will be laying the sections of the toucan

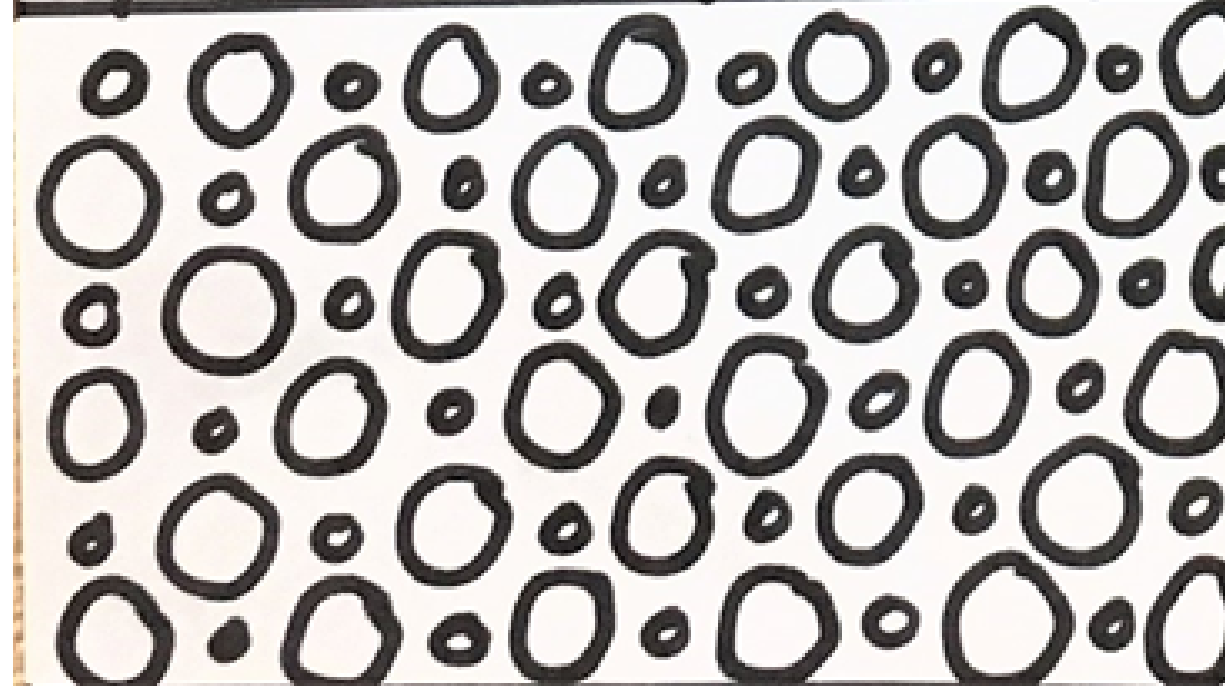

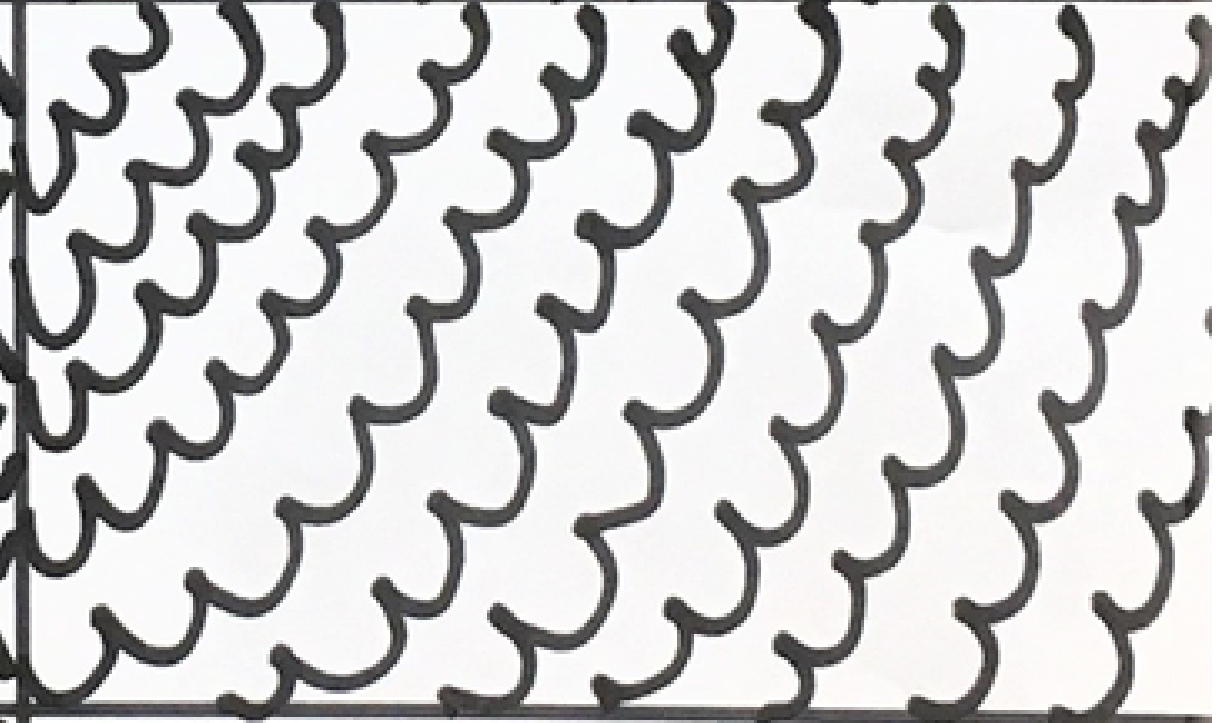

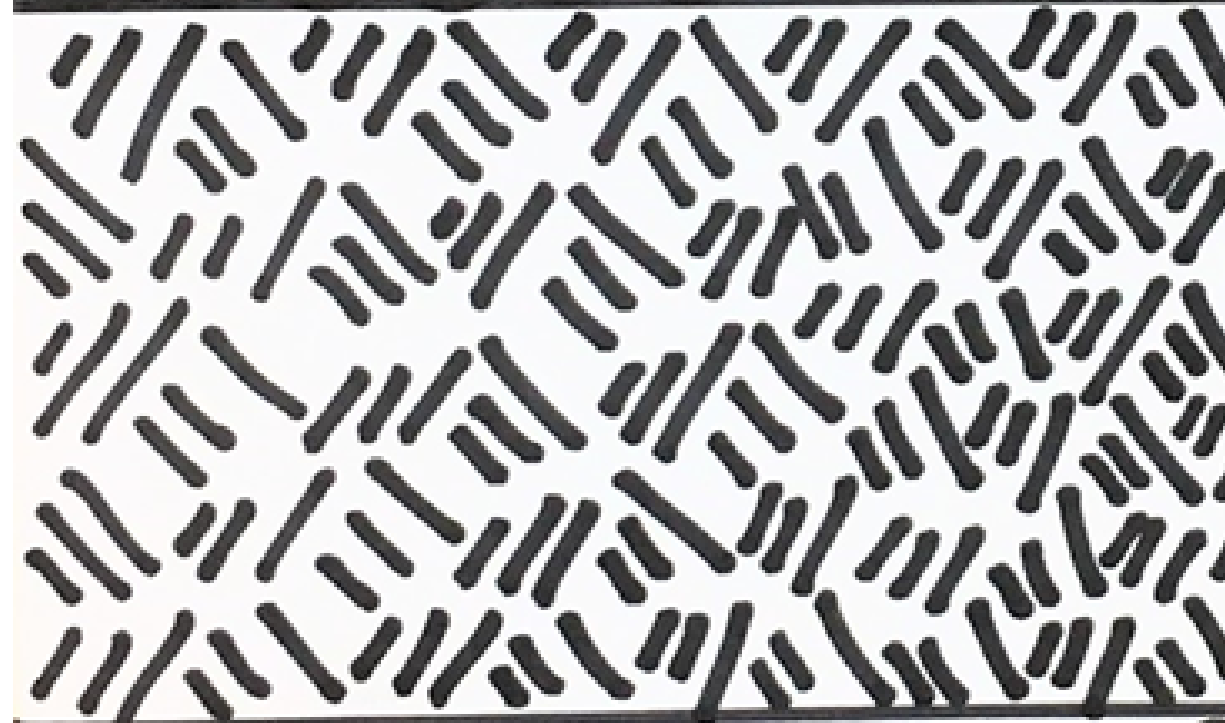

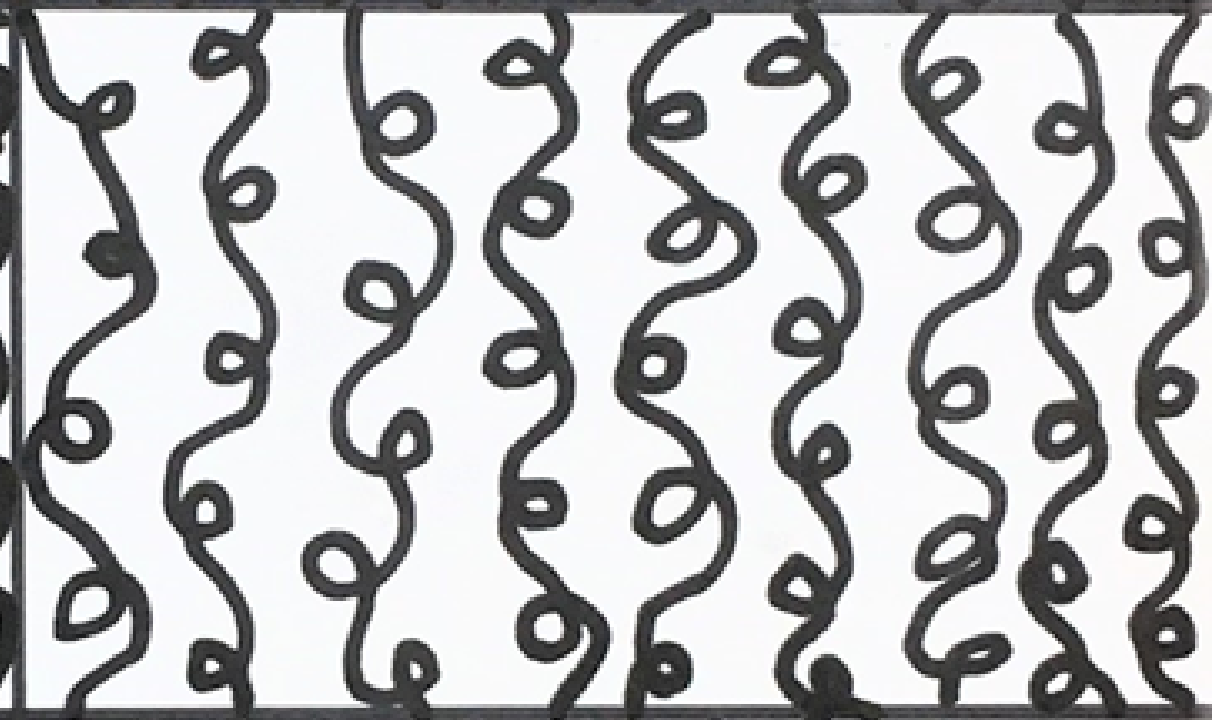

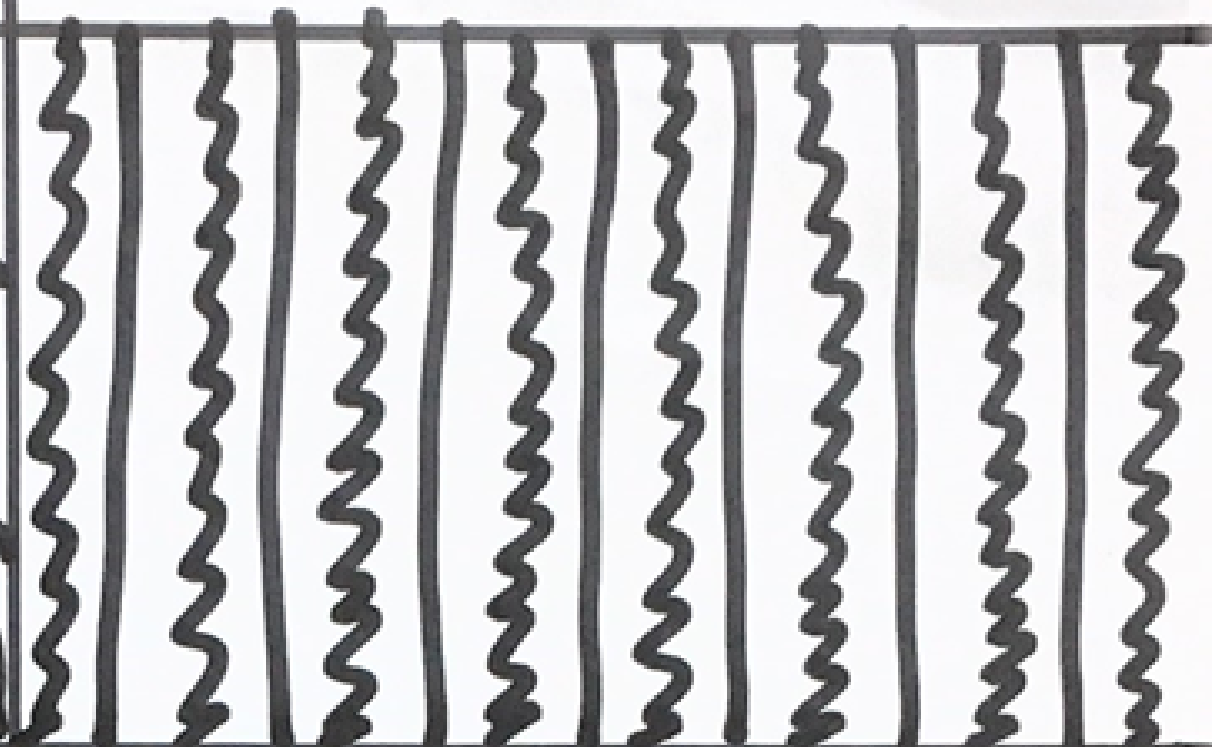

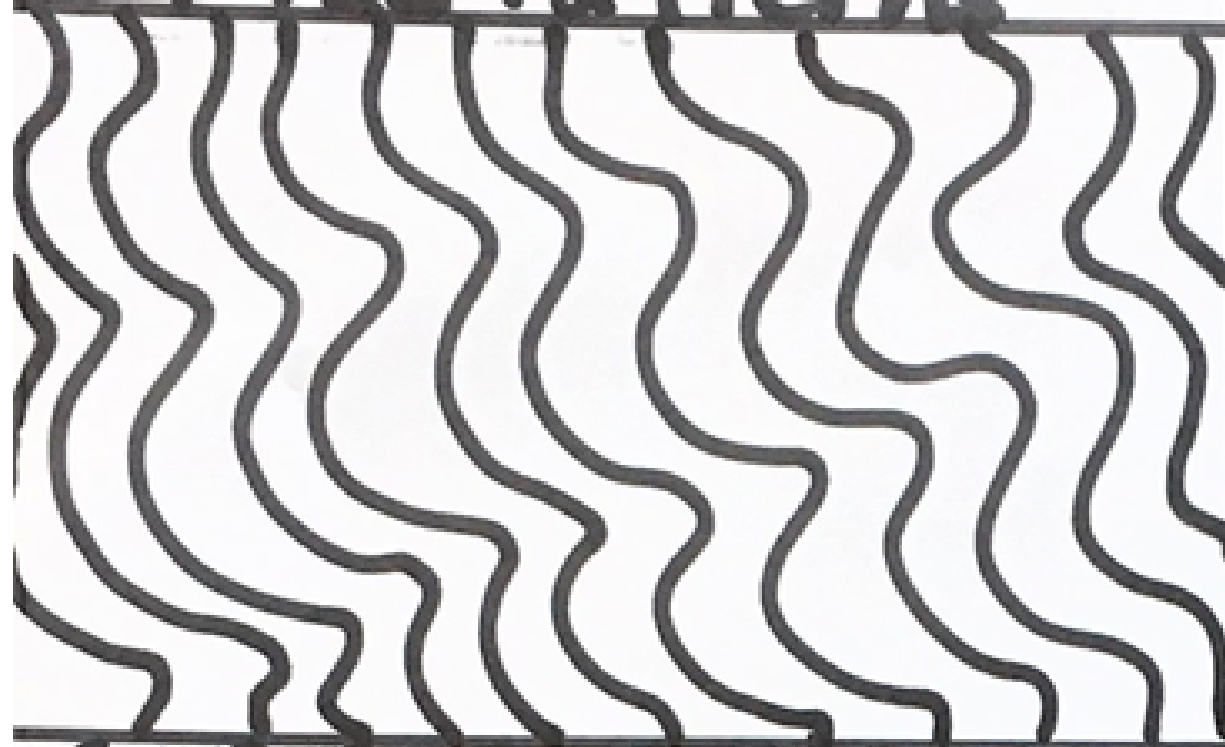

Then, one at a time, lay down your 5 pieces from bottom to top (1-5) on the glue. Rub each piece to make it stick. Add more glue if it dries up. (Display the picture on page 3 if the students forget how the sections of the toucan line up)

Number your pieces 1-5 starting at the bottom- lightly **with pencil!**

# Full Patterns

### **Special Directions for Sections #1 and #4**

#### **Section #1 –The Feet:**

**1- Using black marker, add a pattern to the log.**

**2- Using black marker, make the same pattern you used on Section #3 (the wing) on the left side behind the left foot- this is the back of the other wing.**

**3- Fill in between the back of the wing and the right leg with black marker.**

**4- Color the log, feet, and wing section.**

#### **Section #4 – The Head:**

**1- Color around the little black Pacman shape in the center of the eye any color you want.**

**2- Color around the eye black.**

**3- Using black marker, make a pattern on the rest of the head.**

**4- Color it one color so that it contrasts with your very colorful body, beak, and wings.**

**Hope you had fun with this colorful Toucan!**
