

# Aboriginal Hand Prints

## - Grades K-4

*"One old man in Arnhem Land remembered being carried as a child on his father's shoulders as his father climbed up a log leaning against a rock wall. His father then sprayed his hand with red ochre against the rock, leaving a stencil he could still recognize many years later. The main function of the stencils was to record people's presence and association with a site." — Aboriginal Art Online*

The stenciled hand print and aboriginal style drawings help children to relate to the man from the Australian Aboriginal Culture stated above, while helping them to understand the use of line in art. A black paper with white splattered paint was used, but white paper with red (ochre) splattered paint would make a nice impression also. Construction paper crayons make bright, bold, linear designs around the hand stencil.

### Grade Levels K-4

### Preparation

1. Mix paint in atomizer bottle. Use about two parts paint to one part water. More water may be needed in order for it to spray without clogging.
2. Display several examples of Aboriginal art. Suggested resources:
  - [Crystal Art Portfolio Prints](#), set of twelve 16" x 12" prints. Aboriginal Art Set 1 (72243-1001) or Aboriginal Art Set 2 (72243-1002)
  - [Aboriginal Designs Clip Art Book](#) (71300-1015)
3. Discuss the use of line in Aboriginal art: long, short, curved, straight, thick, thin, loop, zigzag and dot.

### Process

1. Using the drawing paper paper, students trace their hand with a pencil and cut out the shape with scissors.

### Materials

- Blick 80-lb Premium Construction Paper, Black, 12" x 18" sheets (11409-1006), 50-sheet package, need one sheet per student
- Blick White Sulphite Drawing Paper, 80-lb (10209-1043), 9" x 12" sheets, need one sheet per student
- Snippy Scissors (57040-1005), need one per student
- 3M Scotch™ Magic Plus™ Removable Transparent Tape (23002-1501), need one roll per classroom
- Blick Premium Tempera, White (00011-1007), quart, need one per class
- Atomizer Bottles (02912-1003), share five across classroom
- Crayola® Construction Paper Crayons, (20117-0019) 16-color set, share one between two students
- Blick Economy Graphite Pencils (20302-2009), box of 12 pencils, need one per student
- Blick All-Purpose Newsprint, 12" x 18" (10204-1007), package of 50-sheets, need one sheet per student

2. Loop a piece of tape to make it sticky on both sides, then attach the paper hand to the center of the black construction paper.
3. With the atomizer bottle, spray short bursts of paint around the hand until the outline is visible. Allow to dry.
4. Remove the paper hand. Students decorative around the hand stencils with construction paper crayons, creating Aboriginal designs with a variety of lines and patterns.
