

How to Draw a Jack-o'-lantern

Difficulty-Intermediate (K-12)

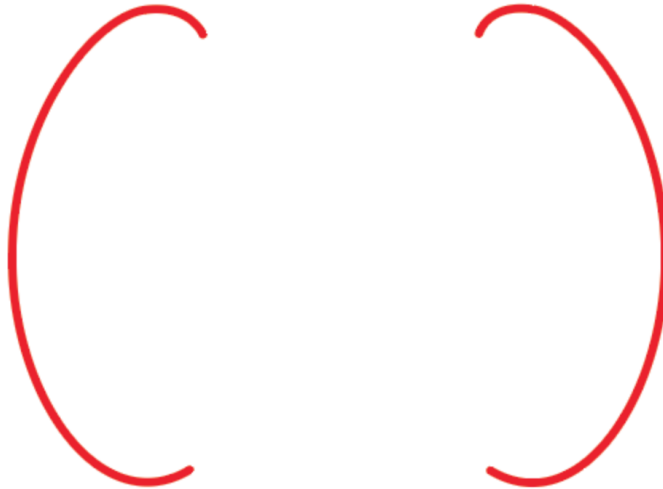

You will need:

- Paper
- Something to draw with (pencil, pen, marker, or whatever you'd like!)
- Colored pencils, crayons, or markers to color in your jack-o'-lantern

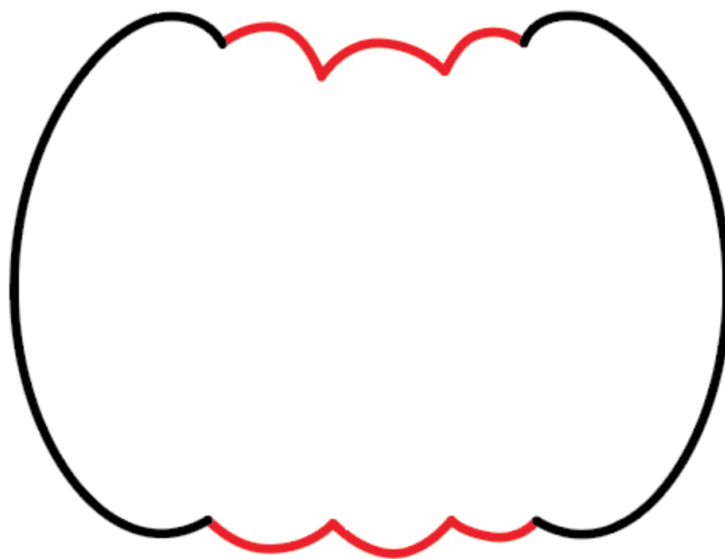

Step 1

Start drawing the outer edges of the pumpkin – a letter C and only the curvy part of the letter D.

Step 2

Next make 3 arches connecting the top end points of the curved shapes (it's OK if you make only two or if you make more). Also make 3 inverted arches connecting the bottom endpoints of the curved shapes.

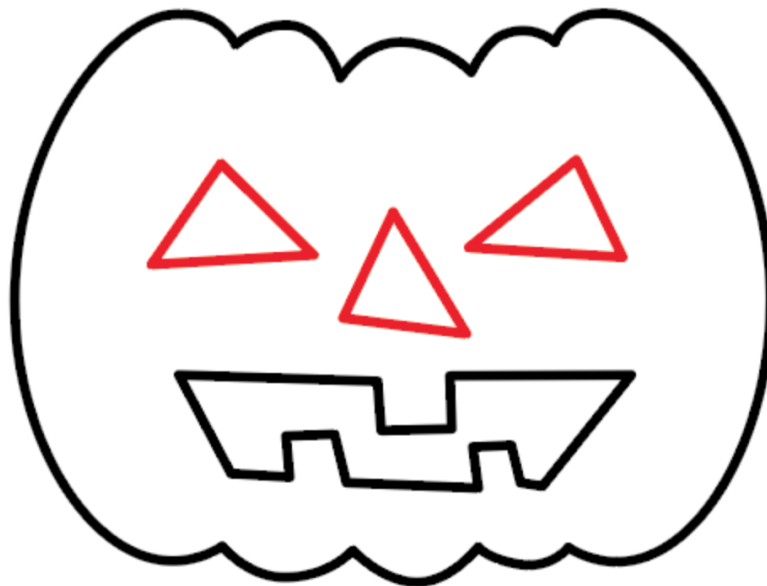

Step 3

Draw the mouth for your Jack o'lantern. You can make it cute, scary, or however you would like.

Step 4

Next come the eyes and nose. Make 3 triangles, 2 for the eyes, and 1 for the nose.

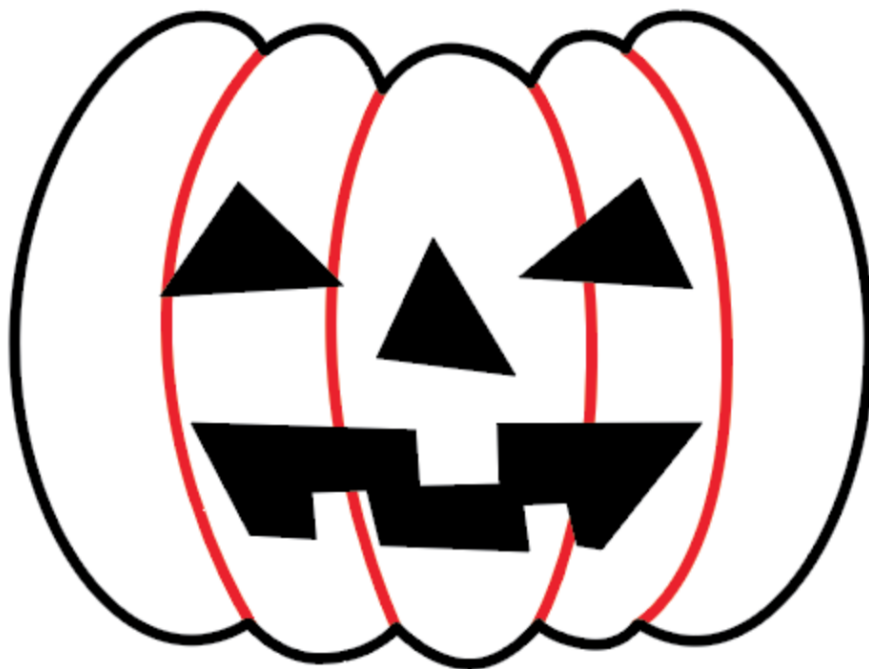

Step 5

Color in the mouth, nose and eyes with the color black.

Step 6

Next come the lines on the pumpkin.

Step 7

Now add the pumpkin stem.

Step 8

Now add a few more arches at the top of the pumpkin.

Step 9

Now add the last detail!

Step 10

Now it is time to color in your pumpkin. Use markers, crayons, or colored pencils!
