

STUDENT LED FOLLOW ALONG DANCE ROUTINE - GRADES 3-6

Needed Materials: None

Instructions: Students should make a list of moves, and one by one each student will get a chance to lead the class in executing those movements in any order they choose.

The other students must follow the leading student as best as they can, and each lead student can do 3-5 moves (this is to make sure everyone gets a turn and no one loses focus of the game).

Encourage the leader to move slowly and try moves that are easy for everyone to follow. Put on a fun kid friendly playlist and let the students have fun expressing themselves and building confidence!
