# How to Draw a Spider

Difficulty-Beginner (K-12)
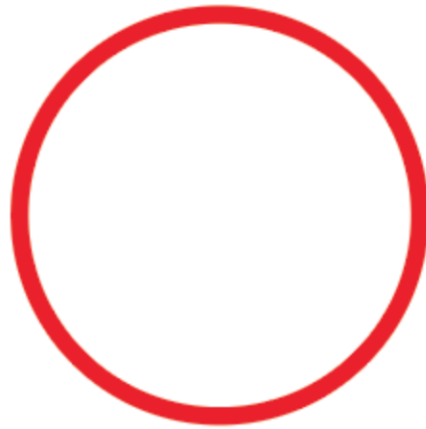

**You will need**:
-Paper
-Something to draw with (pencil, pen, marker, or whatever you'd like!)
-Colored pencils, crayons, or markers to color in your spider
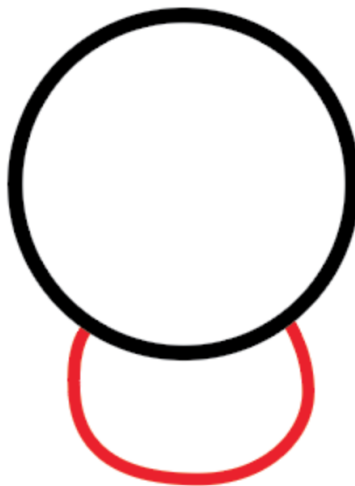

# Step 1

Start by drawing a big circle for the spider body. The circle doesn't have to be perfect.
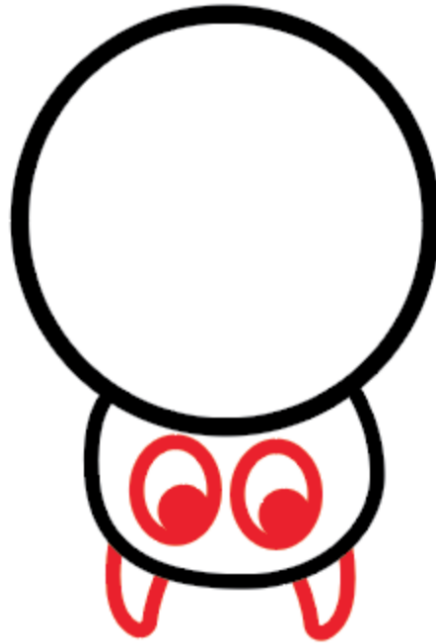

# Step 2

Draw a "wide U" shape under the circle. This will make the spider's head.
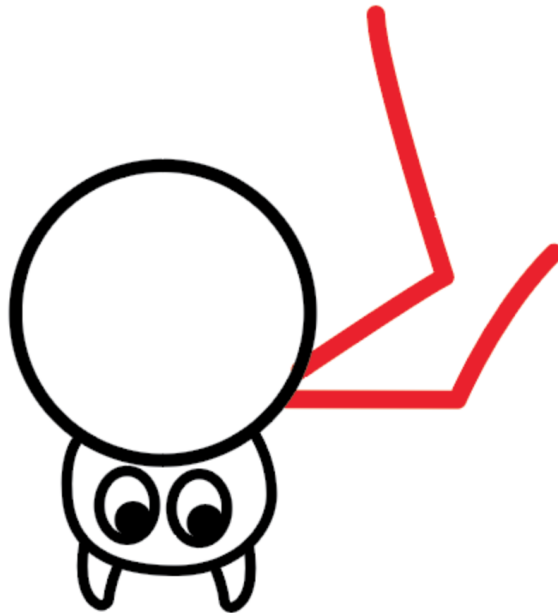

# Step 3

Give your spider a set of eyes and fangs!

# Step 4

Next come the legs. Draw the first pair.

# Step 5

Now draw the second pair of legs.

# Step 6

And repeat on the other side. Draw a straight line at the top for the spider's web.

# Step 7

Now we are done drawing the spider! Color in your spider using any colors you would like!
