

Stomp Rhythm - All Grades

Supplies Needed

You will need items to make a percussion rhythm from. You can use instruments or you can use items around the room such as a table, chair, or even pencils.

Instructions

For this activity, you are going to want to show your students a video of “Stomp”. They are a musical group that uses a combination of everyday items and their own bodies to make percussive sounds.

After watching some of these videos, you will need to split your students into 2-5 groups depending on the size of your class.

Then, you will ask each group to make up their own percussive routines inspired by stomp.

After 15-20 minutes have each group perform their routines.

Here are some links to stomp videos you can show your class
