

# How to Draw an Ant

Difficulty-Beginner (K-12)

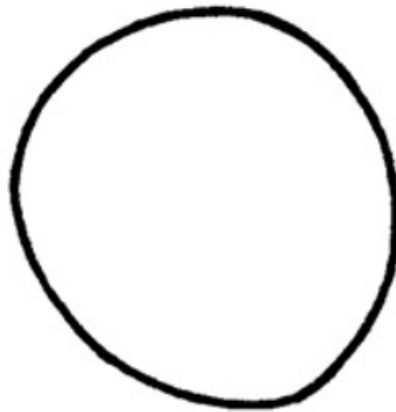

**You will need:**

- Paper
- Something to draw with (pencil, pen, marker, or whatever you'd like!)
- Colored pencils, crayons, or markers to color in your ant

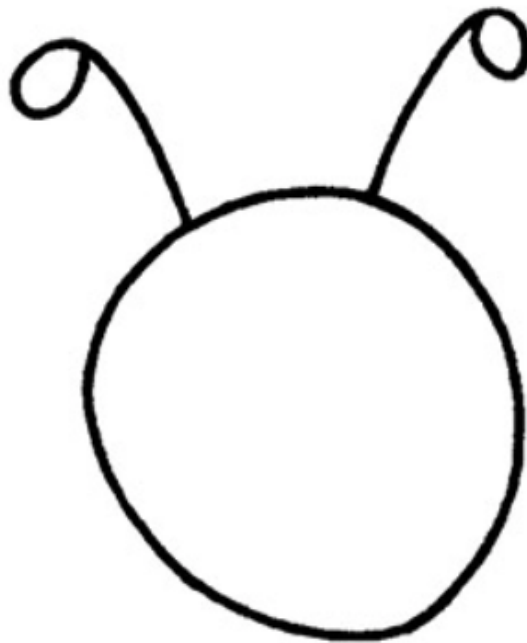

## Step 1

Start by drawing a small circle for the ant's head. The circle doesn't have to be perfect.

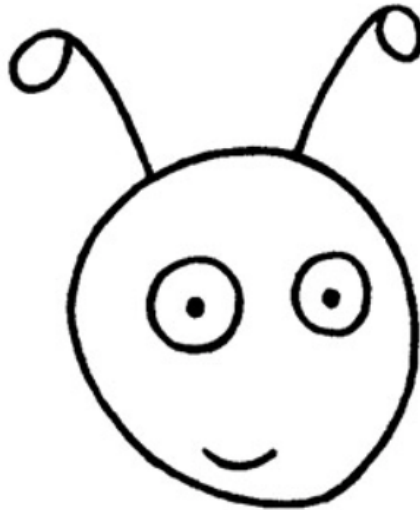

## Step 2

Draw two small vertical lines at the top, with small circles at the end. These are the antennae!

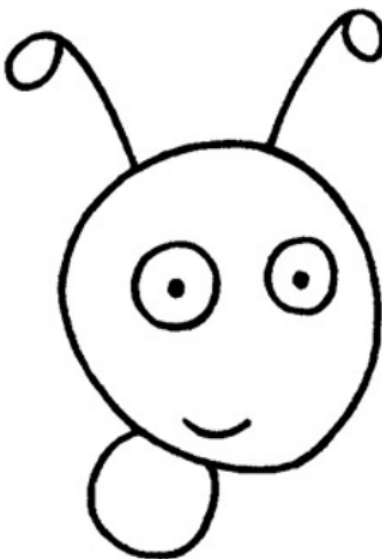

### Step 3

Draw 2 circles for the eyes, with a dot in the middle of each for the pupils.  
Draw a smile underneath!

### Step 4

Draw a small circle under the head. It should be smaller than the head. This is called the thorax!

## Step 5

Now draw the ant's abdomen under the thorax. Just draw a larger oval.

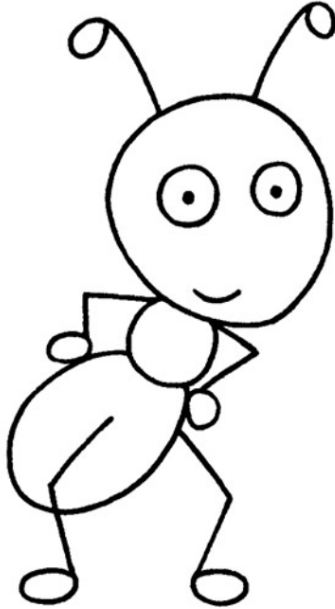

## Step 6

Now let's draw the ant's arms. Draw 2 bent lines with circles at the end as shown below.

## Step 7

Draw the hind legs below in the same way as the front ones. They should be slightly larger.

## Step 8

Time to add color! You can use grey or brown for the ant, or get creative and color it in any way you would like!
