

# **Musical Drawing - Grades K-12**

## **Supplies needed**

**Something to write on like paper, construction paper, etc.**

**Colored pencils, crayons, stickers, glitter glue, etc.**

## **· Instructions for the Activity**

**Choose a song or chant you would like to teach to the class. Start by helping the students learn the lyrics to the song or chant and once they know it, hand out the supplies for the activity.**

**Ask the students to create a picture based on the lyrics of the song or chant using the supplies they were provided. Invite the students to be creative in their choices, giving them free reign to express themselves artistically.**

**After completing the activity, feel free to send a lyrics sheet and the pictures that were created home with the students to help encourage the student and their parent(s) to sing along at home, or you can create a collage of all the pictures to put up in the classroom to utilize at another time.**
