

## Animal Walks - Grades K-2

**Needed Materials:** Paper and hat or small box

**Instructions:** For this activity, the teacher will need to do a quick & easy prep. On small pieces of paper, write down the names of different animals, put them in a hat, and have the students choose one (without letting the other students know what they have). Then, have the student walk around the room pretending to walk like the chosen animal while the other students guess what animal it is. Whoever guesses right will take their turn next.
